

Dr Adem
Can

Dr Adem Can MD, FRANZCP is a consultant Psychiatrist with a special interest in addiction psychiatry and dual diagnosis care.

Dr Can is particularly interested in early interventions and treating anxiety, depression and psychotic disorders.

He provides Repetitive Transcranial Magnetic Stimulation (rTMS) in his clinical practice. rTMS is a proven and alternative treatment for depression. He also has experience using Ketamine as a novel model of treatment for treatment resistant depression.

After graduating from medicine at Ankara University in 1997, Dr Can worked as a GP prior to migrating to Australia where he completed the Australian Medical Council exams in 2002, qualifying him as a General Registered Medical Practitioner. He completed his psychiatry training mainly on the Gold Coast and Brisbane.

He also works in the Life Promotion Clinic at Griffith University Gold Coast, and is a Senior Lecturer at the university.

Dr Can has practiced at Currumbin Clinic since 2012, providing inpatient admissions and outpatient appointments.

To arrange an appointment or referral, please phone Dr Adem Can's consulting suite on 07 5525 9663 or fax 07 5525 9686.
